

## OBJECTIVE

To contribute significantly to highly challenging projects, work with an inspiring team and grow in a reputed organization.

## KEY SKILLS

- Web application development
- Backend Development
- Mobile-based Application development
- Coding and Problem Solving
- Team management

## TECHNICAL SKILLS

- **Programming Languages:** Java, C, Java-script, Python
- **Web Technologies:** HTML5, CSS, Bootstrap
- **Data Management:** MySQL, Firebase
- **Platform:** Linux, Windows

## CERTIFICATION

- **Machine Learning Workshop**  
IIT Bombay | Jan '20
- **Java-script**  
Coursera | Aug '21

## STRENGTHS

- Leadership
- Hard Working
- Creative thinking

## EDUCATIONAL BACKGROUND

**B.Tech. in Computer Science** 2021  
SGGS Institute of Engineering and Technology, Nanded  
CGPA – 7.56

**HSC ( Maharashtra State Board )** 2017  
Arts, Commerce and Science Collage Chandrapur  
Percentage – 70.92

**SSC ( CBSE Board )** 2015  
Jawahar Navodaya Vidyalaya, Gadchiroli  
CGPA – 9.40

## KEY PROJECTS

**Online Education System**  
Domain: Web Application | Backend: Firebase | Lang: Java-script, HTML5, CSS, Bootstrap  
July '21

Vid-call is an online education portal where you can conduct live conferences, students can submit their assignments and there is also a separate post section where one can make any public post.

Website link: <https://vidcall-site.web.app>

**Real Time Messaging Application**  
Domain: Android Application | Backend: Firebase | Tool: Android Studio | Lang: Java  
July '20

Let's Chat App is a social messaging app. It allows you to send text messages and images from smart phones. This app is very user-friendly and free to use. There are number of features build in this application.

Git-hub URL for application <https://github.com/AnuragKomrewar/LetsChatApp.git>

## WORK EXPERIENCE

**Cognizant Technology Solutions** July '21 - Present  
**Programmer Analyst Trainee**

- Gained hands-on experience in developing, implementing, and maintaining internal web applications.
- Worked on building defect free, best in class software products using programming languages and continuous integration techniques.
